PROFILE:

Creative Web Developer || Frontend & Backend Specialist || Code that Connects Ideas to Impact

Results driven web developer with a passion for turning complex problems into elegant, user-focused solutions. With a strong foundation in HTML, CSS, JavaScript, and frameworks like React and Node.js, I build responsive, high-performance websites and web applications that are both functional and visually compelling.

Whether it's developing seamless user interfaces, optimizing site performance, or integrating backend systems, I combine technical expertise with an eye for detail to bring digital experiences to life. I'm continuously learning and adapting to new technologies to stay ahead in this fast-evolving field.

Ability to complete tasks on time in both individual and team settings, dependable and reliable, ready to learn and grow in any organization.

Proficient in communication, time management and team work.
